Initial Build Notes

Cameron is creative director, Will is designer

Some minor notes for the next iteration due Tuesday:
- love the font and color scheme
- overall function of site is great
- I like the hover features of menu
- could use some images at the top of the other sections besides the homepage
- could use more margin on left and right for the text on the non-homepage sections
-have you done the mobile version yet? Could use a different menu option for mobile
- font on homepage of the main quote could decrease size for mobile version
-more margins on left and right for text on non-homepage pages for mobile version
