

I will create individual tabs and a header for each section. The tabs will be at the top in a horizontal bar. Each dash will be a subheading within the tab.

Introduction

- Terminology

Temperature Rise

- Observed Temperature Rise
- Attribution of Temperature Rise
- Greenhouse Gasses
- Aerosols and Clouds
- Land Surface Changes
- Solar and Volcanic Activity
- Climate Change Feedback

Impacts

- Environmental Effects
- Tipping Points and Long-Term Impacts
- Nature and Wildlife
- Humans
- Food and Health
- Livelihoods

Reducing and Recapturing Emissions

- Clean Energy
- Energy Conservation
- Agriculture and Industry
- Carbon Sequestration

Policies and Politics

- Policy Options
- International Climate Agreements
- National Responses

Society

- Denial and Misinformation
- Public Awareness and opinion
- Climate Movement
